WHAT ARE TAPAS? HOW DID THEY GET STARTED?

The Old Taverns of Spain were a place to gather ... a place to have a glass of wine ...
... a place to have a "Tirada"

Little by little, Taverns started to become unique by adding "Tapas" to their wines. Legend says that they were added to avoid insects to float into the wine, while others say it was meant to separate themselves from others by adding a piece of bread on top of the wine.

As time went by, those pieces of bread started seeing toppings ...
Montaditos ... Cheese ... Ham ... Salted Seafood ... and much more ...

Here at MADRID, we celebrate the heritage ... the history ... the art ... the music
Make your OWN trip to Spain just that ... YOUR OWN

Why was Jamón Ibérico "illegal" in the States?
The long-term prohibition on import of Spanish pork products is traceable to incidences in Spain of African swine fever, which could infest domestic pigs.

Why is Jamón Ibérico so expensive?
The Spanish have a sophisticated breeding, feeding, and curing process for their Iberian pigs, which is demonstrated in the ham's quality and price.

What are Montaditos?
Montaditos are a tradition in Spain! The original tapas, where everything is served "montado" (on top) of crusty Galician bread baked daily here
